[Projects](#)

AI Campus Placement Portal

- Developed an AI-enabled campus placement portal designed to simplify the recruitment process for students and recruiters.
- The system focuses on managing student profiles, job opportunities, and AI-assisted resume screening and short-listing of suitable candidates.
Designed to provide a structured platform for connecting eligible students with relevant placement opportunities.

CineVault — Movie Discovery & Management Platform

- Developed a modern web-based movie platform that allows users to browse, search, and explore a wide range of movies through an interactive interface.
- Designed features for organizing movies into different categories, viewing movie details, and providing convenient access to available content.

[Internship](#)

Web Development Intern – Uptricks Services Pvt. Ltd., Pune

1 Month

- Gained practical exposure to web development through hands-on tasks and real-world development practices.
- Worked on developing and improving web-based interfaces with a focus on structured and user-friendly design.
- Strengthened practical understanding of web development, problem-solving, and implementation through project-based learning.

Career Target

Software Developer
